PRESCHOOL

Our Preschoolers returned to Preschool after the term break and found, to their delight, that we had a new acquisition in our playground. A wonderful mud kitchen had been installed by our kind friends at the Parents' Association. The children swarmed to it like a hive of bees and have had enormous fun with this open ended activity for as many days as the weather has allowed us so far.

The Benefits of Mud Play

Oh the joy of mud! Mixing it, adding to it, splashing in it, creating from it and pouring water into it, squeezing it. Things to do with mud are endless. Scientists have now confirmed that playing in mud is a joyful experience and it has health benefits from children being exposed to good bacteria which stimulates the immune system to prevent allergies. Most importantly, playing in mud increases the levels of serotonin in the brain, increasing endorphins that soothe, calm and help children to relax. In short, playing in mud makes children happier and healthier! A big thank you to the Parents' Association for this addition to our Preschool playground.

PRIMARY, MIDDLE AND SECONDARY SPORT

Can you help us?

Many of our sports teams cannot run without volunteer help. We need you! If you can help coach or manage a sports team, please contact the Sport Office at sport@chilton.school.nz. Summer sports are up and underway. Please make sure you have the right uniform for sport ie **the new P.E uniform** where required. With the warmer weather water bottles are essential. Finally, remember to thank your coach and manager for their time and effort, and most of all, have fun!

PRIMARY SCHOOL

Year 4

We have been learning about photography. The Years 3 and 4 girls took the city bus to Wellington and visited the Photospace Gallery. We saw a lot of photographs and we were even allowed to go into a dark room and found out how old cameras use film.

Then we had a visit from Dean Pemberton, Laura's dad *below*. He taught us about techniques such as 'Rule of Thirds', 'Leading Lines', and 'Foreground Interest'. After, we applied what we learned

by taking photographs of our own using iPads. We are really excited about our learning because of some of the fantastic photographs we have been taking. At the end of the term, we will showcase our best photographs and host a wonderful exhibition.

MIDDLE SCHOOL

Middle School Inter-House Challenge

On Monday we held an inter-House competition in Middle School. There were two challenges, the first a game of noughts and crosses where teams had to take it in turns running to place their bean bags in the appropriate circles with communication and speed being the key skills tested in this challenge. The second was to build a free-standing tower of balloons in 15 minutes, each team only had balloons and

sticky tape to use and they had to build the tallest tower they could. A fun time was had by all and we certainly saw some unique creations. Congratulations to Hansell and Lewis who won the noughts and crosses and balloon tower challenges respectively.
